

MELBOURNE VIC

The business has a significant fleet of specialised vehicles, including pressure jet trucks, non-destructive digging equipped units, CCTV vans, and combination units for sewerage work.

Services include:

- ? Vacuum and jetting of gross pollutant traps, storm water drains and sewer manholes
- ? Drain and gutter clearing, including for local and state government roads and highways.
- ? Hydro-excavation to cut sand, soil, clay and rock.
- ? Specialised CCTV camera work.

Sold to an industry operator as a bolt-on acquisition.
