

Sydney

This long-established steel fabrication and agricultural machinery business has been operating successfully for over 40 years from its modern workshop in the Northern Rivers region of NSW.

It specialises in the design and manufacture of purpose-built nut-processing equipment for macadamia, pecan and other nut farms, including dehuskers, conveyors, bunker bins, sorters and elevators.

The business also offers diversified revenue through custom steel fabrication, repairs, maintenance and spare parts supply, creating strong recurring income from a loyal base of agricultural clients across Australia.

With in-house engineering capabilities and proven demand in the expanding nut industry, it delivers stable profitability with excellent growth potential and straightforward operations.

Key Points:

- ? Over 40 years established with deep industry expertise
- ? Specialist manufacturer of nut processing & handling equipment
