

## Melbourne

This thriving pest control business, established in 2009, is a leader in humane possum removal and wildlife relocation services across Melbourne and regional Victoria.

Specializing in eco-friendly, non-lethal solutions for residential and commercial clients, it uses innovative tools like thermal imaging and one-way doors to resolve pest issues without harm. With a strong reputation for expertise, reliability, and customer education, the business generates steady revenue from repeat clients, referrals, and government contracts.

Operating from a home base with low overheads, it offers high margins, a scalable model, and untapped potential in expanding services like bird netting or interstate growth. This turnkey opportunity is perfect for buyers seeking a profitable, purpose-driven venture in a recession-resistant industry.

- Established in 2009 with 15+ years of proven success ·
- Niche focus on humane possum removal and wildlife relocation ·
- High margins with eco-friendly, non-lethal techniques ·
